Instructions

1. **Take a piece of construction paper and fold the top over 1" lengthwise = string fold. This will be where you insert the string.**
2. **Fold the paper in half with the string fold facing out. Then fold the paper in half again so the bottom meets the top. Lastly, fold the paper in half a third time from right to left.**
3. **Cut shapes into all four sides of the tissue paper. Make sure to leave a small space between each of your designs.**
4. **When you're done cutting, open the piece of tissue paper to see what you've created. Cut more if you like.**
5. **Once you have four or five panels, you can attach them to the string to make your banner: put some glue on the top of the first panel, and then fold it over the piece of string. THE END!**
